Cuernavaca, MX | +52 (777) 496 0338 | desireeespinosacontreras@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

EDUCATION

Bachelor of Science in Computer Science and Technology

Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM)

Expected graduation June 2026

Xochitepec, Morelos

- GPA: 3.81/4.00

Relevant Coursework

- Analysis of Software Requirements
- Software Construction and Decision Making
- Programming of Data Structures and Fundamental Algorithms

Kyungpook National University

Exchange Program – Computer Science

South Korea

Aug 2025 – Dec 2025

- Studied **Human-Computer Interaction** with a focus on **user-centered design** and cognitive interaction models.
- Designed and conducted user studies, applying statistical analysis (including ANOVA) to evaluate usability.
- Applied usability engineering principles to improve interface design and **user experience**.
- Collaborated in multicultural teams, strengthening communication and global collaboration skills.

SKILLS

- **Frontend:** React, React Native, JavaScript, HTML5, CSS3, Tailwind CSS / NativeWind, Jest, Selenium
- **Backend & APIs:** REST API integration, Node.js, MySQL, Docker, MongoDB
- **Tools & Platforms:** Git, GitHub, AWS, Figma
- **Concepts:** Responsive Design, Component-Based Architecture, State Management, UX/UI Design, Agile Development
- **Languages:** Spanish (Native), English (C1), Korean (Elementary)

EXPERIENCE

Web Developer

Dec 2023 – Jun 2024

TecXotic – MATE ROV Competition 2024

Kingsport, TN

- Designed and developed a real-time co-pilot interface using React to support mission execution during an international robotics competition.
- Engineered a live video streaming interface using OpenCV, enabling low-latency video display for pilot and co-pilot coordination.
- Built modular UI components to manage concurrent tasks, including real-time monitoring, image capture, and data visualization.

PROJECTS

DermAI

Mobile Developer – UI/UX designer

Mar 2026 – May 2026

- Designed the end-to-end UI/UX of a cloud-based skin lesion classification mobile app, building an intuitive and accessible interface using React Native and JavaScript.
- Integrated a custom-built CNN model with a ResNet-152 backbone trained on the ISIC 2019 dataset, achieving 85% accuracy in classifying dermoscopic images across 8 diagnostic categories.
- Collaborated on the machine learning pipeline development, including transfer learning, data augmentation, and class balancing techniques to handle medical imaging challenges.

CICATA Nexus

Web Developer – UI/UX designer

Feb 2025 – Jun 2025

- Designed and developed a web platform to streamline requests for materials, equipment, and technical support within *CICATA* (IPN), a research center.
- Built a frontend architecture using React, including dynamic forms and data-driven dashboards for inventory and request tracking.
- Implemented reusable components and structured state handling to support complex workflows and multiple user roles.
- Collaborated with stakeholders to translate operational needs into intuitive and efficient user interfaces.

HealthSync

Sept 2024 – Oct 2024

Frontend Developer – UI/UX designer

- Developed an Android application for maintenance technicians to manage equipment failure reports in real time at Children's Hospital in Morelos.
- Built a web interface for hospital staff to submit and track maintenance tickets, improving reporting efficiency.
- Implemented end-to-end ticket tracking workflows, enabling status updates, issue resolution, and better coordination between staff and technicians.
- Contributed to improving hospital operations by digitizing maintenance processes and reducing response time.

LEADERSHIP & INVOLVEMENT

Femineers

Sept 2024 – Jun 2025

- Active member of a student group focused on creating a supportive community for women in STEM.
- Organizing events and conferences with industry leaders to empower and inspire women in tech and engineering.
- Collaborating with fellow members to provide a safe, inclusive environment for female students pursuing STEM careers.
